

Workshop Objectives

This online course in Epidemiology and Biostatistics has 2 introductory modules and 5 substantive modules. Completion of quizzes at the end of the introductory modules is mandatory prior to continuing to the substantive modules.

The course introduces research methods, epidemiological designs, and statistical analyses to health sciences. The course aims to integrate theory and application in epidemiology, clinical medicine, public health, and biostatistics.

- ◆ The course is designed to address each study design using a specific example
- ◆ The study designs and associated biostatistical methods will be dealt with together such that the knowledge gap in adopting a statistic to a study design will be addressed

Who should attend

This workshop is primarily planned for faculty and postgraduate medical/allied health sciences students, PhD students, post-doctorates and others associated with health research.

No prior knowledge of research methods or statistics is required.

Doctors will be awarded KMC credit points.

Organization and delivery

Course faculty will be from St. John's Medical College & Research Institute. All course material will be provided.

Registration

Registration is now open. The tuition fee for participants from within India is outlined in the front panel of this brochure; the fee for participants from outside India is 200 U.S. dollars (all inclusive). Students must submit proof of current registration as a student in an university.

Filled registration form (www.sjri.res.in) can be submitted on a rolling basis till 31st August 2023. The course will be open from 1st Sept to 25th Sept 2023.

For further enquiry and registration, contact:

Dr Prem K. Mony, MD
Course Director
Head, Division of Epidemiology & Population Health
St. John's Research Institute

Dr Tinku Thomas, PhD
Course Co-director
Head, Dept of Biostatistics
St. John's Medical College

Dr Kavya R, MPH
Course Coordinator
Division of Epidemiology & Population Health
St. John's Research Institute

Epidemiology and Biostatistics Fundamentals Online (EpiBio Funda Online)

Dates:

Online course: 1st Sept — 25th Sept 2023

Tuition fee:

Before 20th Aug 2023: Rs 8,000/- (for faculty) and Rs 5,000/- (for students)

After 20th Aug 2023: Rs 10,000/- (for faculty) and Rs 7,000/- (for students)

E-mail: epibioonline@gmail.com

Epidemiology and Biostatistics Fundamentals Online
(*EpiBio Funda Online*)

Attendance in (1) Orientation live class, (2) Intro to Epi-I live class, (3) Online group work and (4) Final group presentation are mandatory to receive the Course Completion Certificate.

	Module 1	Module 2	Module 3	Module 4	Module 5	Module 6	Module 7
Theme	Introduction	Introduction	Descriptive/ Cross-sectional	Experimental Study	Case-control/ Cohort Study	Miscellaneous	Miscellaneous
Session 1	Health Research Methods	Questionnaire Design	Descriptive Study	Experimental Study	Cohort Studies	Intro to Regression Analysis	Disease Screening
Session 2	Intro to Epi – I	Intro to Epi – II	Study Formulation	Trial Formulation, Randomization & Masking	Case-Control Stud- ies	Intro to Qualitative Research	Systematic Review/ Grading Evidence
Session 3	Intro to Biostatistics – II	Intro to Biostatistics – II	Sample Size	Sample size	Sample size	Non-randomized trial designs	Scientific Writing
Session 4	Literature Review	Sampling Technique	Quality Control in Data Collection	Chi-square & Correlation	Epidemiology Exercises (Epi Real Time)	Non-parametric statistics	Reference Management (Real Time)
Session 5	Design of Research Protocol	Testing of Significance	Epidemiology Exercises (Epi Real Time)	Regulatory & Ethical Issues; Budgeting (Epi Real Time)	Comparison of Means (Biostat Real Time)	Intro to Word processing	SPSS (Biostat Real Time)
Session 6	Intro to Data Management	Intro to SPSS	SPSS (Biostat Real Time)			SPSS (Biostat Real Time)
